PROFILE

Senior Angular Developer with extensive experience as Development and Team Lead in enterprise and (semi-)government environments. Takes ownership and enjoys mentoring roles (junior developers/interns). Acting both as a technical point of contact and as a bridge between product/business owners and developers. Continuously up to date with the latest developments in Angular and actively engaged in the developer community. Strong focus on code quality, performance, security, and accessibility.

EXPERIENCE/PROJECTS

Lead Angular Developer - Nibud

May 2025 - Aug 2025

Complete rebuild (greenfield) of the underlying Nibud calculation tools framework using the latest version of Angular, applying all current Angular best practices. Technical implementation of WCAG accessibility standards, including color contrast, keyboard navigation, and fully screen-reader-accessible forms and contextual elements.

Cloudflare Worker for A/B testing - Mintminds

Nov 2024 - May 2025

Developed a scalable Cloudflare Worker for running A/B testing using GrowthBook. Designed for deployment across multiple Mintminds e-commerce clients.

Lead Angular Developer - Sociale verzekeringsbank

Apr 2022 - Oct 2024

Frontend Angular Lead/Architect in a large multidisciplinary team focused on rebuilding a legacy AngularJS application from the ground up, in the latest Angular version, using best practices. Mentored junior developers and ensured high-quality code, architecture, and extendability.

Lead Angular Developer - Nibud

2012 - 2024

Ongoing development of the Nibud calculation tools and underlying framework. Served as preferred supplier for Nibud.

Lead Angular Developer - Asito

2018 - 2020

Lead Angular Developer - Verbond van verzekeraars

2015 - 2020

Angular developer - Ministerie van Justitie en veiligheid (JUSTID)

2016 - 2017

Webdeveloper - Trimm

2007 - 2009

Projects for clients including NXP, Philips, KPN, SLO, and Heineken.

Principal Technical specialist - Avis Europe (UK)

2000 - 2005
